### 1. Purpose

The purpose of this policy is to express Vector Institute's ("the Corporation's") commitment to a diverse and inclusive workplace. This Policy sets out that commitment and outlines a high-level strategy for implementation.

### 2. Commitment to Diversity and Inclusion

Vector recognizes that having a diverse and inclusive organization is essential to the Corporation's ability to further its vision to drive excellence and leadership in Canada's knowledge, creation, and use of artificial intelligence and to improve the lives of Canadians. It is also essential to enable the Corporation to attract the best global talent, focussed on research excellence and innovation.

The Corporation is committed to maintaining a working environment which actively promotes and supports human rights. The Corporation's support for diversity is grounded in a commitment to achieving a working environment that is free of discrimination and harassment as defined in the Ontario *Human Rights Code* and where all individuals are treated with respect and dignity. The Corporation continually strives to foster and maintain a diverse and inclusive work environment in which diversity is embraced, and everyone has equal opportunity to succeed.
